# BUYER'S GUIDE TO THE 2019 *Honda HR-V*

The Honda HR-V is a sleek and sporty compact SUV that provides you with lots of convenient features and cargo room. In this *Buyer's Guide to the 2019 Honda HR-V*, we'll review everything that it has to offer.

## PERFORMANCE

The Honda HR-V runs on a sporty 1.8L 4-cylinder engine that gets up to 141 horsepower and 127 lb-ft of torque. You can count on this powertrain to deliver great efficiency thanks to its Intelligent Variable Valve Timing and Lift Electronic Control (i-VTEC).

This engine is managed by a Continuously Variable Transmission (CVT) with Sport Mode. This delivers smart, precise gear shifting, plus you can customize your drive with available Dual-Mode Paddle Shifters on the steering wheel. This gives you the freedom to manually change gears without a clutch.

With the i-VTEC helping the engine run smoothly, the intelligent CVT, and a standard Eco Assist System™, the 2019 Honda HR-V can get up to an EPA-estimated 28 MPG city and 34 MPG highway<sup>1</sup>. This reliable fuel economy and its 13.2-gallon fuel tank will help you drive further in between stops for gas.

## PASSENGER & CARGO ROOM

Inside the Honda HR-V, there's two rows of seats with room for up to five people. You'll be in for a comfortable ride with 100.1 cubic feet of passenger room. Plus, this SUV can conveniently help you carry lots of cargo.

	Front	Rear
Headroom	39.5 inches	38.3 inches
Legroom	41.2 inches	39.3 inches
Shoulder Room	56.8 inches	54.5 inches
Hip Room	53.1 inches	47.7 inches
Cargo Room (behind seats)	24.3 cubic feet	58.8 cubic feet

The interior is designed to be versatile and accommodate everything you need to carry. It features a 60/40 split 2nd-Row Magic Seat® that can both fold down and flip up.

By folding down the back seats and front passenger seat, you can utilize Long Mode and load cargo that's up to eight feet long like furniture or a kayak. If you flip the back seats up, Tall Mode will give you four feet of vertical storage space floor to ceiling, so you can stand a lamp or potted plant upright.

## CAPABILITY

Front-wheel drive is standard on the 2019 Honda HR-V, but Real Time All-Wheel Drive (AWD) with an Intelligent Control System™ is available. This system can detect when you start to lose traction in the front wheels and transfer power to rear axle.

This SUV is also designed to help you get up and over obstacles that stand in your way. It has a 7.3-inch ground clearance and comes with Hill Start Assist to minimize roll back when you're in the middle of a steep climb.

You can also count on it to grip the road in any conditions with Vehicle Stability Assist™ with Traction Control. This improves your handling by maintaining traction when you're accelerating on wet roads and turning.

## Design Features

Both inside and out, the HR-V offers lots of features to make your drive more comfortable and convenient.

The interior can be fitted with either cloth or leather trim seats. You'll have options that will give you either a refined or sporty feel for the cabin, like an available leather-wrapped steering wheel and shift knob or metallic sport pedals.

It's designed to provide you comfortable lighting at night with Center Console Illumination and Illuminated Steering Wheel-Mounted Controls. You can also let some light in during the day with the available 1-Touch Power Moonroof with Tilt Feature.

You'll also get great sound quality for your music and navigation thanks to Active Noise Cancellation™. This filters out engine, road, and wind sounds and prevents them from interfering with your ride.

This SUV is also ready to take on the winter. Heated front seats are available, as well as power heated side mirrors to help you melt away frost or ice.

On the outside, it sports a stylish design with 17-inch silver alloy wheels, fin-type roof-mounted antenna, and a sleek, roofline spoiler. You'll also have great visibility with Projector-Beam Halogen Headlights and LED daytime running lights, brake lights, and fog lights.

## Safety

The 2019 Honda HR-V keeps you and all your passengers safe with six standard airbags. There's a pair of Advanced Front Airbags, SmartVent® Front Side Airbags, and Side Curtain Airbags with a Rollover Sensor that protect both rows of seats.

You can also be confident that everyone is strapped in securely. The front seat belts are equipped with an Automatic Tensioning System which rapidly withdraws any slack if a collision is detected, while the back features Lower Anchors and Tethers for Children (LATCH).

This SUV also surrounds you with an Advanced Compatibility Engineering (ACE™) Body Structure that uses physics to keep you safe. During a collision, its design can absorb the energy from the impact and redirect it away from the interior cabin.

There are also lots of available driver assistance features that can help prevent accidents. The Honda Sensing® system use a series of sensors and cameras to watch out for every angle of your SUV with features like:

- **Forward Collision Warning:** Detects objects in front of your vehicle and provides you with both audio and visual alerts if your SUV gets too close to an incoming car or curb
- **Collision Mitigation Braking System™:** Locks the brakes and brings the Honda HR-V to a complete stop if it determines a collision is unavoidable
- **Road Departure Mitigation System:** Steers you back into the center of your lane when it detects that you've drifted off the road or crossed over lane lines without signaling
- **Adaptive Cruise Control:** Maintains a safe distance between you and the vehicle in front of you and can adjust your speed if traffic slows down or stops
- **Lane Keeping Assist System:** Adjusts your steering around curves so that your SUV remains in the center of your lane at all times

On top of the Honda Sensing® suit of features, there's additional technology available like Honda LaneWatch™. When you flip on your turn signal to change lanes, it shows you what's in your blind spot using a small camera in your side mirrors.

This image is projected onto your dashboard monitor. This is also where you can check behind you when you're backing up. Just shift into reverse and you'll see what the Multi-Angle Rearview Camera sees. It can show you what path you're on with dynamic guidelines, and it provides you with three different angles: normal, top-down, and wide.

## Infotainment System

On top of helping you change lanes and reverse, your dashboard monitor is also the home of your infotainment system. You'll have a choice between a 5-inch LCD and a 7-inch Display Audio high-resolution touch-screen.

The entire system is Bluetooth® compatible, so you can stream music from your phone or safely take calls with the Bluetooth® HandsFreeLink® feature. There's also an available SMS Text Message Function to help you send and receive messages without taking your hands off the wheel.

You'll also be able to access all your favorite smartphone apps, no matter what kind of phone you have. The Honda HR-V is fully compatible with both Apple CarPlay™ and Android Auto™. To keep your phone charged, there are two USB ports in the front console.

Throughout your drive, you'll get excellent sound quality with HD Radio™. Plus, you can get some variety in your soundtrack with SiriusXM® Radio.

This SUV also helps you find the best route to your destination. The Honda Satellite-Linked Navigation System™ features voice recognition, while Honda HD Digital Traffic provides you with turn-by-turn directions.

## Trim Levels

The 2019 Honda HR-V offers five trim levels with lots of options and available features. The base trim is the LX. It offers a comfortable drive with cloth seats, Bluetooth®, and front-wheel drive.

The next trim level is the Sport. To back up its name it adds the sleek metallic sport pedals and standard steering-wheel mounted paddled shifters. It also gives you more standard technology like Active Noise Cancellation™, Apple CarPlay™, Android Auto™, and the larger 7-inch touch-screen

The third trim level makes getting in and out of your SUV more convenient. The Honda HR-V EX lets you lock and unlock the vehicle while the keys are still in your pocket with a Smart Entry with Walk Away Auto Lock® feature.

You'll get some luxury inside the EX-L. It has standard leather seats, a leather shift knob, and a leather-wrapped steering wheel. Plus, an Automatic-Dimming Rearview Mirror to help prevent glare from other cars at night.

The final trim level is the Touring. It's the only trim that makes both the Honda Satellite-Linked Navigation System™ and Real Time All-Wheel Drive™ standard. It also provides you with more comfort behind the wheel by giving the driver's seat 8-Way Power Adjustment.

## Test Drive the 2019 Honda HR-V

Contact your local Honda dealership to learn more about this *Buyer's Guide to the 2019 Honda HR-V* and take one for test drive. It offers a fun and efficient drive inside a safe and comfortable compact SUV.
